# HKUST INTRAMURAL CAMPUS RUN KICKS OFF 2019-2020 INTRAMURAL SPORTS COMPETITIONS

It was the HKUST Intramural Sports Competition that all the running enthusiasts had been waiting for: the 2019-2020 Intramural Campus Run, the signature HKUST race of the year.

The event, jointly organized by The HKUSTSU Sports Association and The Distance Runners' Club, was held on Thursday, 26 September 2019. It was our pleasure to have Prof. Ben CHAN, Associate Director, Center for Engineering Education Innovation (E2I), Associate Prof. from the Department of Civil and Environmental Engineering, Resident Master of UG Hall II and notable alumnus to be the Guest of Honor and officiated the race at around 6:15pm.

A total of 140 registered runners, male and female, local and non-local, UG and PG representing 12 Departmental Teams began the course at the Atrium, first running up to the North Gate then down towards the dormitories. They traced the route back up the notoriously long and challenging hill to the LEE Shau Kee Campus. From the top of campus, they ran back through the South Gate. The runners finished triumphantly where they began, at the Atrium, where the closing prize ceremony was held afterwards.

In addition to the hard work and collaboration of the Sports Association, Distance Runners' Club and Chief Officials from the DSTO, the smoothness of the event was facilitated by the 36 UG students who served as volunteer helpers and race assistants
